- Rugged design stands up to the critical demands of industrial use.
- Simultaneous charging of all bays.
- Charging times: 31.08 Whr battery - 3hr., 59.2 Whr battery - 6 hr.
- A conditioning button conditions and calibrates batteries on demand, and a revers-pulse charging prolongs battery life.
- Redundant algorithms provide safety for defective batteries; protects both the batteries and the charger.
- When charging in cold temperatures, the charger applies a gentle trickle charge to warm up the battery, then switches to fast-charge at operating temperature.
