Operational Visibility Service

GET THE CONTROL AND ACTIONABLE INSIGHT YOU NEED TO DRIVE
IMPROVED BUSINESS PERFORMANCE

You’ve purchased Zebra mobile computers and printers to improve workforce productivity, operational efficiency and differentiate the customer service you deliver. To maximize the benefit of those investments, you need visibility into the wealth of operational information — both asset-centric and operational performance — that can be provided by those devices. Significant control and efficiency gains can be captured when you know where your devices are, how they are performing, whether they are being fully utilized, if they are properly configured with a fully charged battery for full-shift power, the status of print supplies and how operational processes are performing when enabled by those assets. And with Zebra’s Operational Visibility services, you will.
